Total credit weight   40

Student Declaration: I have selected modules that are suitable for my course of study and have ensured that my enrolment on optional modules has been agreed by the School/Department offering the module(s).

Signed...   *Date..*

The completed, initialled and signed form must be returned to your school by 15/05/2015. Your examination entry depends on this.

PRE-REGISTRATION
GUIDELINES ON THE COMPLETION OF THE MODULE ENTRY FORM

1. This Module Entry form shows the modules that you are already enrolled on for the coming academic session, including your core modules: if you think the information is incorrect please contact your School/Department Office urgently.

2. This is your opportunity to choose your optional modules for the next academic year BEFORE the teaching timetable is scheduled. Please note that we cannot guarantee that optional module choices can be scheduled clash-free into your timetable, however, it is important that we gather as much information as possible on what you would like to study in advance of creating the teaching timetable.

3. Please complete the form with details of your chosen modules for both Autumn and Spring semesters and write clearly the optional module including the module code you wish to add to your choices.

4. A member of staff from the School/Department offering the modules must initial your choice in the 'Agreed' column to indicate that your enrolment on the module has been approved by them. Without this we will be unable to add the module to your student record.

5. If you are unsure which restricted modules to choose, please consult the relevant supplementary regulations in your programme specification at htto://www.nottingham.ac.uk/Academicservices/CurrentStudents/StudentRegulations.aspx
   The Regulations show details of your approved course of study.

6. You can consult the online module catalogue of Modules to view the details of modules available in the next academic session. The draft Catalogue is available at http://modulecatalogue.nottingham.ac.uk/nottingham/asp/main search.asp
   The catalogue is updated on a regular basis if module details change.

7. Your choice of modules should normally total 60 credits per semester and not less than 50 or more than 70 per semester . To determine how a Full Year module contributes to the number of credits in a semester check the credit split for the module in the Module Catalogue

8. Part I Honours students must enter 120 credits with at least 90 credits over the year from level 2 or above.

9. Part II Honours student must enter 120 credits with at least 100 credits from level 3 or above.

10. Part Ill Honours students must enter 120 credits with at least 90 credits at level 4 or above plus 10 credits at level 3 in the Part III year and must have entered 120 credits at level 4 overall in part II and III.

11. Module Enrolment will also take place in September and January when you will have an opportunity in the first two weeks of the semester to make adjustments to your optional module choices.

12. Once you have chosen your modules and had them approved, it is your responsibility to ensure you have read the declaration, signed the form and handed it in by the deadline date on the front of the form. If you do not hand in your module enrolment form by the deadline it may not be possible to approve your choices at a later date.

13. The Nottingham Advantage Award is an additional accredited programme of modules designed to help you make the most of your extra and co-curricular activities and enhance your employability skills. To apply for Nottingham Advantage Award modules you should go to http://www.nottingham.ac.uk/Careers/Students/AdvantageAward/Index.astax for information and module application forms.

14. It is your responsibility to ensure that your choice of modules conform to the University Regulations (including the University of Nottingham Qualifications Framework) and the regulations for your course.
    Failure to do so may prevent you from progressing to the next stage of your course or from graduating.
